ALL	ALL	Vale District Dispatch	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Description

The Selection Area module is used to manage selection areas for a dispatch center's immediate subordinate centers. For example, NICC maintains selection areas for the GACCs, and each GACC maintains selection areas for their subordinate dispatch centers. Dispatch centers are not permitted to set their own selection area.

A Selection Area defines the placement authority between selected dispatch offices, coordination centers, and NICC. Organizations within the selection area can order resources directly with other organizations within the selection area, without enlisting normal dispatch centers.

This module is closely related to the Pending Requests module.

ROSS Module Summary

Selection Area

Data Information:

Data Element	Data Definition
Set Selection Area for	The Dispatch Center for which to set placement authority with other units.
All Catalogs <i>checkbox</i>	When checked, will set placement authority for all Catalogs.
All Categories <i>checkbox</i>	When checked, will set placement authority for all Categories.
Catalog	The primary selection data criteria for which the agreement is granted. These include Aircraft, Crews, Equipment, Overhead, and Supplies.
Category	The various sub-groups within a category for which the agreement is granted (e.g. Fixed Wing, Helicopter).
Ordering Authorization for <i>Selected Dispatch Center</i>	Select the organization(s) that are authorized to place orders directly.
Ordering Authorized <i>checkbox</i>	Organization that is authorized to place orders.
Place Up Authorized <i>checkbox</i>	Typically, ordering rules do not permit a request that has been placed within a selection area to be placed up. This checkbox allows some exceptions to these ordering rules to be handled.
