

Fill with Assignment Roster using Configuration

DATE: 08/10/10

VERSION 2.12

The best time to set travel is when you are filling the request. For an IA load of smokejumpers you have two basic options:

- **Set Travel.** This option allows you to designate the ETD, ETA, and the smokejumper aircraft that will be used. The parent travels with this selection, and the pending subordinate requests display on the Pending Request screen to be placed, filled, or canceled.
- **Set At Incident.** This option allows you to set the parent at the incident. The pending subordinate requests display on the Pending Requests screen to be placed, filled, or canceled.

To set travel for the IA load of smokejumpers request

1 On the Fill Request dialog box, perform one of the following:

- Click to select **Set Travel**, click and then click to select the ETD and ETA of your choice. In the **Mode of Travel** text box, type the name of the smokejumper aircraft to be used. Complete the **Assigning Contact** text box, click and then click .
- OR
- Click to select **Set At Incident**, complete the **Assigning Contact** text box, click and then click .

To complete the smokejumper request for actual deployment

- A On the **Pending Request** screen under **Select Pending Request**, click to select the smokejumper request that you want to fill.
 - B Click and then click to select the resource filling the request.
 - C Click and then click to select **Fill**.
 - D On the **Fill Request** dialog box, click **Set At Incident**, complete the **Assigning Contact** text box, click and then click on the **Request Action Message** dialog box.
- Repeat steps B through D for every smokejumper actually deployed to the fire.*
- E For jumpers not deployed, on the **Pending Request** screen under **Select Pending Request**, click to select the smokejumper request(s) you want to cancel.
 - F Click click to select **Cancel Request**, click and then click on the **ROSS Request Action Message** dialog box.

The screenshots show the following steps:

- A:** The 'Select Pending Request(s)' dialog box with a table of pending requests.
- B:** The 'Assigning Contact' table listing resources like Flintstone, Fred (CO-CRC).
- C:** The 'Fill Request' dialog box with the 'Set At Incident' option selected.
- D:** The 'Fill Request' dialog box with the 'Set Travel to Be Arranged' option selected.
- E:** The 'Select Pending Request(s)' dialog box with a table of pending requests.
- F:** The 'Request Action Message' dialog box showing a list of cancelled requests.

Resource Name	Unit ID	Provider	Available To	Current Location	Prepos	Distance
Flintstone, Fred (CO-CRC)	CO-CRSX	Craig Rural Fire Protection	Local	Craig Rural Fire Protection	No	99999
Lighthouse, Buzz (CO-CRC)	CO-CRSX	Craig Rural Fire Protection	Local	Craig Rural Fire Protection	No	99999
Mattel, Barbie (CO-CRC)	CO-CRSX	Craig Rural Fire Protection	Local	Craig Rural Fire Protection	No	99999
